

Conscious Chat

Conscious Chat offers a unique opportunity to engage in conversations with OpenAI GPT-4 on the expansive and fascinating topic of consciousness. Participants are invited to take a seat at the desk and enjoy a moment of amusement and relaxation amidst the bustling conference.

Beyond the enjoyment factor, Conscious Chat also holds the promise of uncovering unusual and thought-provoking facets of consciousness itself, specifically in relation to GPT's linguistic behavior. The exchanges with GPT have the potential to yield intriguing insights into this captivating subject matter.

How to participate:

1. To start chatting, please introduce yourself with your first name and email address. Example: "Hello, I'm Professor John. My Email is name@example.com".
2. Please keep your conversation limited to topics related to consciousness.
3. You can chat as many times as you like during the congress. Please feel free to return to the chat at any time to resume your previous conversation.
4. We promise that everyone who chatted will receive a file with all the conversations accumulated during the congress. This will be a valuable resource for sharing knowledge and insights related to consciousness.
5. We assure you that all of the data and information will be safe, and we will protect your privacy.

Thank you for participating in our Consciousness Congress Chat initiative. We hope you enjoy the conversations and gain new insights into the fascinating topic of consciousness.
